LEGEND:

General Notes:

1. All fixtures, fittings and dimensions within PWD and ambulant areas to comply with AS1428.1 2009.
2. Partition structure to support 1100N when grab rails are supported from wall.
3. Drawings to be read in conjunction with SCH01 Materials and Finishes Schedule, SCH02 Fixtures and Fittings Schedule and SCH04 Joinery Schedule.
4. Locations of all Floor Wastes and Hydraulic services to be confirmed with Hydraulic Engineer's drawings.
5. Elevation setout of fittings and fixtures is typical unless noted otherwise.
6. Refer to manufacturers guides for all fittings and fixtures in regards to installation requirements.
7. All fixtures to be mounted above FFL.
8. Fixture setouts from adjoining walls typically from finished surface.
9. Typically all walls within wet areas to have full height tiles. Refer to elevations for tile codes and extents.
10. Provide aluminium square profile BAT trims to all exposed tile junctions.
