1. OVERALL STRATEGY

Solomon Islands Government remains committed to its overall strategy on COVID-19 to *protect all Solomon Islanders and all people living in Solomon Islands, to keep the economic engine of the country going, and to position the country to emerge from this challenge stronger and united*. This strategy is the foundation of our COVID-19 Preparedness and Response Plan, and other measures implemented by the Government.

The National Disaster Council (NDC) Arrangement is employed as the country's whole of Government response approach in the coordination of COVID-19 through the National and Provincial Disaster Operations Committees (N-DOC and P-DOC). The N-DOC and P-DOC through its Sector Committees COVID-19 Preparedness and Response Plans are contributing to the health, social and economic security of the people of Solomon Islands through approaches that minimise the risk of importation of COVID-19 in the country, minimizing the spread, reducing morbidity and mortality, and minimizing societal disruption, and psycho-social and economic impact of COVID-19.

2. KEY HIGHLIGHTS

- Solomon Islands remain COVID-19 Free to date with the Government committed to implementing appropriate and strict measures to prevent the importation and spread of COVID-19.
- The second State of Public Emergency for the country is still in force since Saturday 25th July 2020.
- The National Disaster Operations Sector Committees (N-DOC Sectors) and Provincial Disaster Sector Committees (P-DOC) Coordination Arrangements of the National Disaster Council (NDC) remains the country's preparedness and response coordination mechanism for the pandemic.

Diagnostic Facilities (Laboratory & Equipment)

- The participation of the Solomon Islands laboratory with 181 countries in the global external quality assessment programme (EQAP) is testament to the quest for the laboratory to strive for excellence in the provision of quality service to its people.
- The Solomon laboratory scored 100% agreement to results of the 5 panels from the Hong Kong assessment and the 3 sub-regional panel sent from the Pacific Paramedical Training Centre (PPTC) in New Zealand.

- Training of NRH laboratory technicians/staff on COVID-19 testing is ongoing with two more lab staff being trained on COVID-19 testing. Additionally, 13 new recruits have signed their contract in this reporting period and are being earmarked for the molecular testing.

Environmental Health

- EHD monitoring of Quarantine Stations ongoing.
- Findings showed there is need for improvement on separation of general and clinical wastes, provision of disposal plastic bags, scheduling of collection of medical wastes and program for delivery of food to quarantine persons.

Clinical Management

- 1 person brought to Isolation, test returned negative. Person is still under isolation.
- Triage and Isolation team continue to be on stand-by.
- Following recent deployment of two of the staff from National COVID-19 triage and isolation to Shortland Island, SOPs for clinical management and workflow for triage and isolation in Shortland have been established.

Risk Communication and Public Awareness

- Conducting Field test of the COVID 19 community empowerment tools.
- Conducting Pretesting of “How to prevent COVID 19 during pregnancy” materials.
- Printed COVID – 19 materials for MOI – 100 copies of each sets (6 sets)
- Print and deliver COVID 19 information and preventive measures for 50 Members of Parliaments.
- Supported Solomon Islands Electoral Office by election preparations with COVID-19 information and its key preventative measures.
- Supported IPC and PPE training of staff of hotels (King Solomon, Honiara Hotel, Pacific Casino & Heritage Park Hotel).
- Ongoing radio health programme.
- Development of concept note for COVID-19 kids quiz program
- Development of concept note for possible Q and A with public via MHMS FB page.

5.6. SAFETY AND SECURITY

Royal Solomon Islands Police Force (RSIPF)

- Police Operations Centre (POC) with the support of the National Emergency Management Special Events Planning (NEMSEP) maintains performing the coordination role regarding safety and security on SIG COVID-19 response.
- Commissioner’s weekly press conference continues and remains an important avenue to inform the public on the current engagement of RSIPF regarding the whole of SIG response on COVID-19.
- RSIPF resources and personnel at the Solomon Islands Border continues to provide logistical support as a whole of SIG response in its COVID-19 border operations.
- RSIPF continue conduct routine patrols to all Qs to ensure public and persons under quarantine adhere to rules and regulations set. As of 30th September, Police have static presence in Qs accommodating our students from Philippines.
- Health awareness should be ongoing and conduct more awareness on COVID 19 especially on social distancing within the communities and more on Health Tips.
- **RSIPF Maritime:**
 - RSIPV AUKI and GIZO are supporting border operations.
 - Police Response Team (PRT continues to conduct high visibility patrols around Honiara Municipality and Quarantine Stations.

- PRT continues to assist and engage in border operations.
- PRT continues to ensure the public comply in practicing social distancing measures.
- **Provincial Reports:**
 - RSIPF maintain and providing logistical support to SIG frontline agencies on deployment at the SI-PNG Border.
 - Support P-DOC Sector Committees in conducting COVID-19 awareness in all the Provinces.
 - Police continues to provide the overall responsibility of maintaining safety and security for the SIG COVID-19 responses.

Correctional Services Solomon Islands (CSSI)

- Planning Team successfully conducted SOP presentation and mock exercise for low and high risk inmates at Rove Central Correctional Centre (RCCC). Mock exercise includes:
 - Prevention Procedures PPEs
 - Transfer/Escort of inmates SOP
 - Admission/Discharge of inmates SOP
 - Clinical/Waste Management SOP
- Planning Team continue to follow up on tasking business continuity plans within CSSI Headquarter and all Provincial Correctional Centres.
- CSSI Medical Team continues to enforce strict preparatory measures to staff and inmates at RCCC.

6. OTHER NATIONAL SUPPORT

- SIG continues to receive donor support through the relevant N-DOC Sector Committees. The Government of Australia, New Zealand and the People's Republic of China being the prominent donors since the SOPE.
- International Organisations such as the WHO, UNICEF and UNDP have greatly supported and assisted the Government Response.

7. OPERATIONAL CHALLENGES AND GAPS

1. Coordination

- This remains the major challenge amongst SIG response agencies. Agencies are observed to be protective of their mandated areas of operations (operational space) even though the N-DOC Arrangement is being employed as the SIG COVID-19 response coordination mechanism. This tends to limit coordination amongst response agencies.
- There is yet to be an established coordination mechanism and centre established at the Border to coordinate the Border operations.

2. Information sharing and communication

- Some Sectors are not providing situational updates to the NEOC. It must be noted that Sectors implementation of the PRP is ongoing. Observations have seen that regular updates are being shared through other platforms but not to the NEOC or the PEOCs. Thus, affecting the development of operational information management products for decision-makers.

3. Disbursement of funds and sector support to the Provinces

- Operationally the slow process in the disbursement of financial support especially to the Provincial Disaster Operations Committee and Sectors has resulted in minimal implementation at the Provincial level.
- N-DOC Sector Committees are providing minimal support to the P-DOC counter-parts.
- Level of preparedness at the provincial level is low.

8. RECOMMENDATIONS

1. Coordination

- There needs to be an information session on the N-DOC and P-DOC Arrangement with all SIG responding agencies
- Specific to the Western Border, an On-Site Operation Coordination Centre will be established at Nila to coordinate the whole of SIG response.
- Enhance collaboration with all other N-DOC and P-DOC Sector Committees.
- Decentralise implementation of programmes from N-DOC committees (National Level) to P-DOC (Provincial level) committees, with the latter to progressively take leadership and appropriately resourced from N-DOC committees at the national level
- N-DOC Committee to have regular meetings to improve the overall coordination of the implementation of PRP.

2. Information sharing and communication

- N-DOC and P-DOC Sector Committees and members are informed and reminded to continue providing to the NEOC or Sector EOCs situational updates. This will feed into the development of decision-making products for the N-DOC/P-DOC and OSC and for public information.
- Health to provide COVID-19 information and its preventative measures to the quarantine stations.

3. Disbursement of funds and sector support to the Provinces

- Ministry of Finance and Treasury (MOFT) to prioritise disbursement of funds for Provincial Preparedness and Response work from respective N-DOC Committees.
- N-DOC Sector Committees are informed and reminded of their obligation to provide national support directly to the P-DOC counter-parts.

N-DOC Sector Committees are encouraged to schedule weekly communication/conversation to respective P-DOC counter-parts. This should assist in obtaining situation updates and provide operational guidance to Provincial counter-parts.

9. NEXT UPDATE AND APPROVAL

Next update upon available information.
