

PROJECT BRIEF: SW0682021 Ranadi Road to Goodwood Outfall Project

Works for the Ranadi Road to Goodwood Outfall project covers civil and mechanical works including laying of sewer pipes and installation of manholes along the road from Solrice to Goodwood Timbers, and constructing a pump station at Goodwood. The location of this project is in the greater Ranadi industrial area and is aimed at providing sewer disposal services to the industrial area and the National Stadium.

Contractor:	Pacific Engineering Projects (PEP) Ltd
Project Period:	November 2022 – November 2024
Scope of Works:	The scope cover the installation of 1.2km of DN400 HDPE pipes including laterals of DN200 PVC pipes, construction of 24 associated PE manholes and a pump station. All roadways, drains and areas disturbed by the construction work will be reinstated and restored.
Project Location:	See map below on the location for the works along the road from Solrice to Goodwood Timbers.

SW0682021 - Ranadi Road to Goodwood Outfall Project location

Forward schedule

January to February 2024:	Trenching, pipe laying and manhole installation works will occur along the road from from Kosol to Solrice.
March to April 2024:	Trenching, pipe laying and manhole installation works will occur along the road leading into SI Cement.
May to June 2024:	Trenching, pipe laying and manhole installation works will occur along the Origin Energy road.
January to November 2024:	Works will continue in sections along the road from Ela Motors down to Goodwood Timbers.

This is a preliminary schedule and is subject to change during construction depending on weather, availability of materials and/or equipment which can impact the proposed dates.
