# UPSIZE

## YOUR PASSWORDS

**So they're long, strong  
and hard to crack**

**SOLOMONS.GOV.SB/MINISTRY-OF-FINANCE-  
AND-TREASURY/SIG-ICT-SERVICES**

Long, strong and unique passwords are much harder for attackers to crack. Try creating a passphrase which is a string of four or more words – this is much stronger than a random mixture of letters, numbers and symbols.

**CYBER  
UP  
PACIFIC**

**UPGRADE**

**TO TWO-FACTOR  
AUTHENTICATION**

**So your online accounts  
have double protection**

**SOLOMONS.GOV.SB/MINISTRY-OF-FINANCE-AND-  
TREASURY/SIG-ICT-SERVICES**

Enable two-factor authentication (2FA) for your online accounts by turning it on in privacy settings. When you next log in, it will be a second step such as your thumbprint, face ID or a one time code from an app to verify it is really you.

**UPDATE**

**YOUR APPS  
AND SOFTWARE**

**To keep bugs and  
viruses out**

**SOLOMONS.GOV.SB/MINISTRY-OF-FINANCE-AND-  
TREASURY/SIG-ICT-SERVICES**

Updating apps and software provides new features as well as fixing security risks that can be used to gain access to your personal information. Ensure automatic updates are enabled on all of your devices to keep yourself secure.

**YOUR  
PRIVACY**

**To keep your personal  
information secure**

**SOLOMONS.GOV.SB/MINISTRY-OF-FINANCE-AND-  
TREASURY/SIG-ICT-SERVICES**

Before you share your personal information online, check your social media settings to ensure they are switched to 'friends only' and that any requests for personal information are legitimate.

**To minimise downtime  
in an incident**

**SOLOMONS.GOV.SB/MINISTRY-OF-FINANCE-AND-  
TREASURY/SIG-ICT-SERVICES**

Upscale your backup and recovery to minimise downtime in an incident. Implementing and testing backups helps to minimise downtime and ensure business continuity in the event of a security breach or data loss.

**YOUR DATA SECURITY**

**To protect against  
unauthorised access**

**SOLOMONS.GOV.SB/MINISTRY-OF-FINANCE-AND-  
TREASURY/SIG-ICT-SERVICES**

Uplift your data security to protect against unauthorised access. Security measures like firewalls and permission-based controls provide protection. Regularly review and update security measures and educate staff about cyber security. Keep your passwords private and make sure you lock your devices when not in use.
